MATHIEU SCHRURS

Full Stack .Net Developer

Profile

I'm a versatile individual with experience across various domains, embodying a jack-of-all-trades mentality. Enthusiastic and collaborative, I thrive in team environments, bringing strong drive and determination to achieve results while maintaining attention to detail. Though still growing in my development journey, I'm motivated and committed to becoming a skilled developer.

Work Experience

2024

-

2024

Software Engineer Intern

Batt Mobility @ Wintercircus Gent

- Worked with Blazor, Azure, Web APIs, and Entity Framework to develop, debug, and optimize software features while ensuring maintainable code and functionality.

2019

-

2023

English / Dutch Teacher

Sint-Janscollege // HTISA // Campus Saint-Jean

- Facilitated language learning through engaging lessons and interactive activities.
- Employed effective communication skills and teaching techniques to foster a collaborative learning environment.

2017

-

2019

Music Publishing Assistant

Product Design Manager

- Assisted in music licensing and rights management, organizing catalogs, clearing copyrights, and tracking royalties.
- Collaborated with artists, composers, and internal teams to ensure compliance with licensing agreements.

2017

-

2017

[PIAS] Intern

PIAS UK London Head office

- Assisted in day-to-day operations of the PIAS UK London office, gaining insight into music distribution and label management.
- Supported the team in various administrative tasks, including organizing promotional materials and maintaining databases.

2012

-

2017

Sales Captain (student job)

Pepperminds

- As Sales Captain at Pepperminds, I led training sessions for large groups and participated in face-to-face marketing campaigns for NGOs, driving sales performance and achieving campaign objectives
